OUTPATIENT SERVICES

Lee's Summit Medical Center offers a wide variety of services on an outpatient basis. Our Outpatient Reception Area provides you with a convenient, centrally-located place to register and relax until you are escorted to the department for your services. This reception area also offers you the convenience of wireless networking capabilities and refreshments for those who accompany you for your test or treatment. In addition, our Care Cart will visit the area three times a day to provide snacks and additional refreshments. Our goal is to create a relaxing and comforting environment for you and your family members while providing you with the highest quality care available in the area. We want you to be very satisfied and make Lee's Summit Medical Center your healthcare provider of choice.

Outpatient Services Include:

Same Day Surgery

Many procedures can be performed on an outpatient basis, including laser, laproscopic and micro-surgery

Imaging Services

Including digital mammography, MRI, CT Scan, breast MRI, ultrasound, nuclear medicine. Mobile PET scanning and bone density scanning

Cardiac Rehabilitation

Phase II and Phase III Cardiac Rehab are available on an outpatient basis, regardless of whether your physician is on staff at Lee's Summit Medical Center

Other Outpatient Services
